3300XL Underwater Probes
Product Datasheet
Bently Nevada* Asset Condition Monitoring

Description

3300 XL underwater probes are designed specifically for applications involving constant exposure to liquids, such as those in hydroelectric plants or sewage treatment facilities. These designs also seal the probes against gases. All our underwater probes are rated to 500 psi (34 Bar). Contact a sales representative for applications that require higher pressure ratings.

All of the underwater probes are compatible with standard 3300 XL Proximitor* Sensors and extension cables. Note that these probes each belong to a different family (8mm, 11mm, or 25mm) and consequently require different Proximitor Sensors and extension cables. Refer to the standard data product sheets to obtain ordering information for the 8mm, 11mm, and 25mm transducer systems.

The 100630, 148239, and 174985 probes were developed for applications in which the entire probe is submerged or exposed to fluids. Tubing attached to the probe case protects the probe cable, but the connector end of the probe is not sealed against liquids and must
not be submerged. In addition, the probe case is made of 304 Stainless Steel and is not suitable for salt-water applications. Contact a sales representative if you have an application involving salt water.

 Specifications

 Electrical & Mechanical

The electrical and mechanical specifications for each of these probes are the same as standard product for the 8mm, 11mm, and 25mm systems. Reference data sheets as follows for complete specifications

<table>

 Environmental Limits

 Probe Temperature Range

| Operating and Storage Temperature | -51 °C to +177 °C (-60 °F to +351 °F) |

 Probe Pressure

Rated to seal 34 Bar [500 psi] Nitrogen. Modifications are available for applications involving higher pressures. Contact a Sales Representative if your application requires a test of the pressure seal.¹

¹Note

It is the responsibility of the customer or user to ensure that all liquids and gases are contained and safely controlled should leakage occur from a proximity probe. Bently Nevada, Inc. will not be held responsible for any damages resulting from leaking proximity probes.

 When installed per drawing #142491.

Ordering Information

3300 XL 8mm Underwater Proximity Probe

100630 3300 XL 8mm Underwater Probe, 3/8-24 UNF thread, sealed case with Tefzel® Tubing

Part Number-AXX-BXX-CXX-DXX-EXX

A: Unthreaded Length Option

Note: Unthreaded length must be at least 0.7 in. less than the case length.

Order in increments of 0.1 in

Length configurations:

Maximum unthreaded length:
\[ 8.9 = 8.9 \text{ in} \]

Minimum unthreaded length:
\[ 0.0 = 0.0 \text{ in} \]

Example: 0.4 = 0.4 in

B: Overall Case Length Option

Order in increments of 0.1 in

Threaded Length configurations:

Maximum case length:
\[ 9.6 = 9.6 \text{ in} \]

Minimum case length:
\[ 0.8 = 0.8 \text{ in} \]

Example: 2.4 = 2.4 in

C: Total Length Option

05 0.5 metre (1.6 feet)
10 1.0 metre (3.3 feet)
15 1.5 metre (4.9 feet)
20 2.0 metres (6.6 feet)
50 5.0 metres (16.4 feet)
90 9.0 metres (29.5 feet)

D: Connector and Cable Type Option

01 Miniature coaxial ClickLoc™ connector with connector protector, standard cable
02 Miniature coaxial ClickLoc connector, standard cable

3300 XL 11mm Underwater Proximity Probe

148239 3300 XL 11mm Underwater Probe, 5/8-18 UNF thread, sealed case with Tefzel® Tubing

Part Number-AXX-BXX-CXX-DXX

A: Unthreaded Length Option

Note: Unthreaded length must be at least 1.0 in. less than the case length.

Order in increments of 0.1 in

Length configurations:

Maximum unthreaded length:
\[ 11.0 \text{ in} \]

Minimum unthreaded length:
\[ 0.0 = 0.0 \text{ in} \]

Example: 0.4 = 0.4 in
B: Overall Case Length Option

Order in increments of 0.1 in

Threaded Length configurations:

Maximum case length: 12.0 in
Minimum case length: 1.8 in

Example: 24 = 2.4 in

C: Total Length Option

10 1.0 metre (3.3 feet)
50 5.0 metres (16.4 feet)
90 9.0 metres (29.5 feet)

D: Connector and Cable Type Option

01 Miniature coaxial ClickLoc connector with connector protector, standard cable
02 Miniature coaxial ClickLoc connector, standard cable

3300 XL 25mm Underwater Proximity Probe

174985 3300 XL 25mm Underwater Probe, 1.25-12
UNF thread, sealed case with Tefzel® Tubing

Part Number-AXX-BXX-CXX

A: Unthreaded Length Option

Note: Unthreaded length must be at least 1.0 in. less than the case length.

Order in increments of 0.1 in

Length configurations:

Maximum unthreaded length: 8.9 in
Minimum unthreaded length: 0.0 in

Example: 04 = 0.4 in
