GE Sensing

Features

- Pressure ranges from 10 in H₂O to 10,000 psi (25 mbar to 700 bar)
- 0.05% full scale (FS) all-inclusive accuracy
- Optional 0.01% FS premier accuracy
- Fully interchangeable; no set-up
- Impact resistant, elastomer protected
- Robust, weatherproof and simple to use

Applications

- Remote pressure sensor for IDOS compatible instruments
- Applications: test, measurement, monitoring and calibration
- Expands instrument ranges and capability

The IDOS Universal Pressure Modules (UPM) are robust and simple to use.

Highly accurate IDOS are housed in tough functional cases, providing dependability along with plug and play connectivity.

They provide a cost effective solution for expanding instrument ranges, adding pressure measurement capability and addressing more applications.

Intelligent Digital Output Sensors™ (IDOS)

Druck Universal Pressure Modules

IDOS is a Druck product. Druck has joined other GE high-technology sensing businesses under a new name—GE Sensing.

Applications

Measurement and monitoring

Indicator, controller and recorder testing

Transmitter maintenance and calibration

Process loop set-up and maintenance

Switch, trip and safety system testing

IDOS Pressure Modules can be used with any compatible instrument; for example, a DPI 812 RTD loop calibrator can become a fully featured pressure calibrator.

Total Flexibility

IDOS modules can be used with any compatible instrument; for example, a DPI 812 RTD loop calibrator can become a fully featured pressure calibrator.

Instrument Range Expansion

Simply achieved by adding modules

DPI 800 Series

IDOS UPM

DPI 150

DPI 150 Pressure Indicator

A high precision, simple to use bench or panel mounted indicator suitable as a secondary standard

G = gauge, A = absolute, G/D = gauge/differential, calibrated referenced to atmosphere maximum line pressure 30 psi (2 bar). Stainless steel compatibility.

Non-corrosive gas:
Non-corrosive gas:
N/A = not available. Accuracy assumes regular zero correction.

IDOS Flexibility

Intelligent Digital Output Sensor (IDOS)

Universal Pressure Modules are available from 10 in H2O to 10,000 psi (25 mbar to 700 bar).
**GE Sensing**

**IDOS Specifications**

*IDOS UPM–S Standard Accuracy*
Total accuracy including calibration uncertainty, operation over 32°F to 122°F (0°C to 50°C) and one year stability. Negative calibration included.

*IDOS UPM–P Premier Accuracy*
Precision over 65°F to 82°F (18°C to 28°C), for operation from 41°F to 113°F (5°C to 45°C) 0.014% full scale (FS), 0.075% for ranges 10 in H₂O to 10 psi (25 to 700 mbar)

Stability 0.01% reading/year
(0.03% for ranges 10 in H₂O to 5 psi (25 to 350 mbar)

Calibration uncertainty 50 ppm of reading.
Negative calibration optional

Overpressure (maximum transient/intermittent pressure)
5 psi (350 mbar) and below 4 x FS
10 to 10,000 psi (700 mbar to 700 bar) 2 x FS
Maximum working pressure: 1.1 x FS

Pressure Connections
G 1/8 female; M5 reference on G ranges above 30 psi (2 bar)
1/8 NPT female; 10-32 UNF reference on G ranges above 30 psi (2 bar)

Electrical Connection
3 ft (1 m) cable with locking instrument connector

Operating Temperature
14°F to 122°F (-10°C to 50°C)

Storage Temperature
-4°F to 158°F (-20°C to 70°C)

Humidity
0 to 90% non-condensing, Def Stan 66-31, 8.6 Cat III

Shock and Vibration
BS EN61010:2001. Def Stan 66-31, 8.18 and 8.6 Cat III.

EMC

Safety
Electrical BS EN61010:2001. PED, Class SEP. CE marked.

Size (l x w x h) and Weight
5 in (maximum) x 2.3 in x 1.7 in
(130 mm x 60 mm x 45 mm), .53 to .71 lbs
(240 to 325 g)

Options

(A) Negative Calibration
UPM P module ranges 300 psi (20 bar) and below.

Please refer to pressure range table for ranges and accuracies.

Ordering Information

Please state the model number IDOS UPM S for the standard accuracy version or IDOS UPM P for the premier accuracy version followed by the range, G/D, G or A and G 1/8 female or 1/8 NPT female.

Supporting Services (order as separate items)

Each unit is supplied with calibration certificate and user guide.

Related Products

GE is a world leader in the design and manufacture of pressure, temperature and electrical field calibrators, laboratory/workshop calibration equipment and pressure sensors.

Supporting Services

Our highly trained staff can support you, no matter where you are in the world. We can provide training, nationally accredited calibration - both initially and at periodic intervals - extended warranty terms and even rental of portable or laboratory calibrators. Further details can be found in www.gesensing.com/productservices/service.htm
